

## Activity 6: Creative and investigative learning questionnaire

Throughout the week ahead, consider how many times you give your class or group opportunities to investigate for themselves or lead their own learning.

When you have allowed children to experience this type of learning, make some notes below about the activity itself, what the outcomes were and whether they met your expectations.

### Activity:

---

---

---

---

---

What was the learning objective?

---

---

---

---

How did your class/group show that they had met the objective?

---

---

---

---

How was this learning experience different from your usual classroom learning?

---

---

---

---

Did the children enjoy learning in this way? How do you know?

---

---

---

---
