Track Pupil Progress with iTRACK, powerful online data analysis and reporting for Teachers and School Managers

Easy to use

Flexible

INTRODUCING iTRACK

iTRACK is the online pupil tracking software that uses powerful data analysis to track your students' progress and attainment in real time. Easy to use, customisable, and tailored to fit your school's profile. iTRACK is tried and trusted by schools nationwide, in fact, over 90% of schools using iTRACK are Ofsted rated good or outstanding.

Designed by teachers, for teachers, iTRACK supplies its users with helpful tracking reports, so you can pinpoint precisely where to focus your teaching strategies. iTRACK is also conveniently cloud-based, so you can securely access important pupil data whenever and wherever you like.

What sets iTRACK apart from other tracking systems is that it is incredibly easy to use, intuitive and is believed to be the most flexible system on the market.

SUMMATIVE AND FORMATIVE TRACKING

With iTRACK, teachers can track pupil progress across the school from EYFS to Key Stage 3, in as much detail as you want, from formative to summative assessments ensuring you can make sure that your students can reach their full potential.

iTRACK covers the core subjects of English, Maths and Science and there's a choice of over 20 foundation subjects.

iTRACK is designed specifically for assessment without levels (AWL), and it shows progress in AWL over a wide range of time frames, meaning that you can easily understand where improvements need to be made, long and short-term.

REPORTING

Get to the heart of the data with helpful tracking reports, so you can pinpoint precisely where to focus your teaching strategies. iTRACK also lets you write and store notes for individual pupils, so you can always keep up to date with their progress.

Research has shown that over 90% of Report Writer users have submitted positive feedback on the features which include fully drafted end of year pupil reports.

ATTAINMENT AND PROGRESS DASHBOARDS

iTRACK gives you quick and easy access to the pupil assessment information you need with beautiful graphs and tables.

Headline school data is presented on one easily accessed page, with data as detailed bar charts, pie charts or tabular views.

iTRACK lets you toggle between your school tracking standards and Department of Education terminology.

The background is a solid dark blue color. Scattered across it are several light blue wooden blocks. Some blocks have mathematical symbols: a plus sign (+), an equals sign (=), and the number 1. There are also some blocks with circular indentations, similar to LEGO bricks. The text '123' is prominently displayed in the center in a large, white, sans-serif font.

Flexible

EASY TO USE

iTRACK was designed for teachers, by teachers. With its user-friendly interface and intuitive design, you can get started straight away - so you can focus on your students, not the software.

Never lose your data with the powerful back up and restore functionality; receiving daily automated updates from your Management Information System is all part of the service.

CUSTOMISABLE

You can easily adapt iTRACK to match your school curriculum, track against up to 8 standards, so you can really make iTRACK your own.

About 50% of iTRACK schools use their own custom standards.

Roughly 35% of iTRACK schools track learning objectives, of which 50% of these are using or have edited their own objectives into the system.

iTRACK allows you to filter your data with multiple settings for vulnerable groups (SEND, Pupil Premium, Looked After Children. etc.) and create as many of your own groups as required.

Cloud Based Access

TIMESAVING

No endless clicking and fuss - easily upload your data and get started iTRACK works with the LCP assessment tests which are complimented by Know Your Pupils (a diagnostic reports and assessment programme).

iTRACK provides a quickly accessible database of pupil information, so it's easy to keep teachers, Senior Leadership Team, Governors, the Department of Education and Ofsted in the loop.

LCP'S ASSESSMENT TESTS

LCP's assessment tests are designed to work with iTRACK and benefits from pupil data stored in iTRACK. The assessment tests cover English, Reading and Maths for years 1-6 Autumn, Spring and End of Year.

SECURE

iTRACK uses the same type of encryption as online banks, so your important data is safe with us!

You never have to worry about losing crucial pupil data with our built-in Back-up and Restore Functionality. Data within iTRACK is securely protected through encryption and all of the security meets government standards and requirements.

Each school is able to establish for themselves which staff have access to their iTRACK account, from simple read-only access to full read-write administrator privileges.

iTRACK also uses secure password controls to ensure that only people who are permitted to access iTRACK are able to do so.

Parent Governors can also be given access to iTRACK where the pupil names are anonymised with numbers instead of pupil names.

Track from Nursery to Year 9

Flexible

WHAT MAKES iTRACK DIFFERENT?

Apart from the clever use of good and trusted technologies, what sets iTRACK apart from other tracking systems is that it is designed from the outset to be simple and easy to use and is believed to be the most flexible system on the market. Your teachers will find it easy to use and the system will deliver according to the needs of your school, cluster, federation or trust.

TESTIMONIALS

"I have been more than happy with the iTRACK data analysis tool since it has provided me with extremely detailed analysis which in turn has enabled all teachers to drill down into specific cohorts of children, ensuring they get the best possible support. I have been very impressed with how the iTRACK team have listened to my specific requests and have personalised our account i.e. specific objectives for reading and writing have been worded in a child-friendly way, finding combined data scores at different points in the year, providing an easy to use pupil tracking sheet for parents evening. It is their willingness to listen and respond to not only National demands but also school demands that has impressed me. I am now seeing teachers confidently using iTrack for formative assessment data which is a good indicator as to the effectiveness of this analysis tool."

**Nick Newberry, Head teacher,
Brimington Junior School**

"We like iTRACK, it is accessible, clearly formatted, ever improving, provides good training afterward, their dynamic staff respond to our needs, it's accessible at home, accessible to governors, creates reports that are easy to print, Ofsted used it successfully – what more could we ask?"

**Rebecca Scutt, Head teacher,
Stow-On-The-Wold Primary School**

All of our teaching staff use iTRACK to monitor and review the progress of their own classes. The head teacher and members of the Senior Leadership Team use it to track progress across the whole school. The SENCO uses it to track progress for SEN pupils. The EAL and G&T co-ordinators track EAL and ABLE pupils. It is also used to support progress management.

Richard Jackson,
Gorse Hill Primary School

To be honest, all aspects of iTRACK are extremely useful. I find the MGP very useful when discussing the progress of cohorts with my governors and SIP and of course, my staff during professional development meetings

Nick Peters,
King Sutton Primary School

"iTRACK has been an excellent addition to assessment within our primary school; now every child's performance can be carefully monitored."

Patrick Hair,
Mill Hill Primary School

"The online support offered by iTRACK means that on the rare occasion that things go wrong, or additional support is required, someone has always been available to help. The speed of their replies is what has impressed me most, meaning small issues don't become major headaches. The fact that someone replied, to acknowledge my query, outside of 'normal' working hours, was particularly appreciated."

D Peterson, Head of School,
Stokesay Primary

"Your support is first rate. Any problems I have, I have had first class support on. Thankyou."

Penny Rickets,
Norwich Road Primary School

HERE'S A SELECTION OF OTHER PRODUCTS AND SERVICES LCP CAN PROVIDE

iASEND

iASEND is an assessment, tracking and target setting cloud based system that provides schools, teachers, parents and researchers with information that shows attainment and progress in real time. It is a unified assessment solution making use of digital technologies to support inclusion and equal opportunities for all.

iTRACKSTRATEGIC

iTRACK Strategic by LCP is a new online pupil tracking system that aggregates and compares multiple iTRACK accounts where schools are working together, making it an ideal tool for Multi Academy Trusts, Federated Schools and Clusters.

iTRACKLITE

iTRACKLITE is a stripped back version of LCP's iTRACK pupil tracking system. Rather than the in-depth Formative approach that iTRACK provides iTRACKLITE details a summative review of pupils progress but still maintains those essential time saving features.

RESOURCES

LCP can also offer schools a great range of practical and engaging resources to support teaching subjects covered in the National Curriculum. To see the full range please visit www.lcp.co.uk
